The
Panther
Tales
of
55

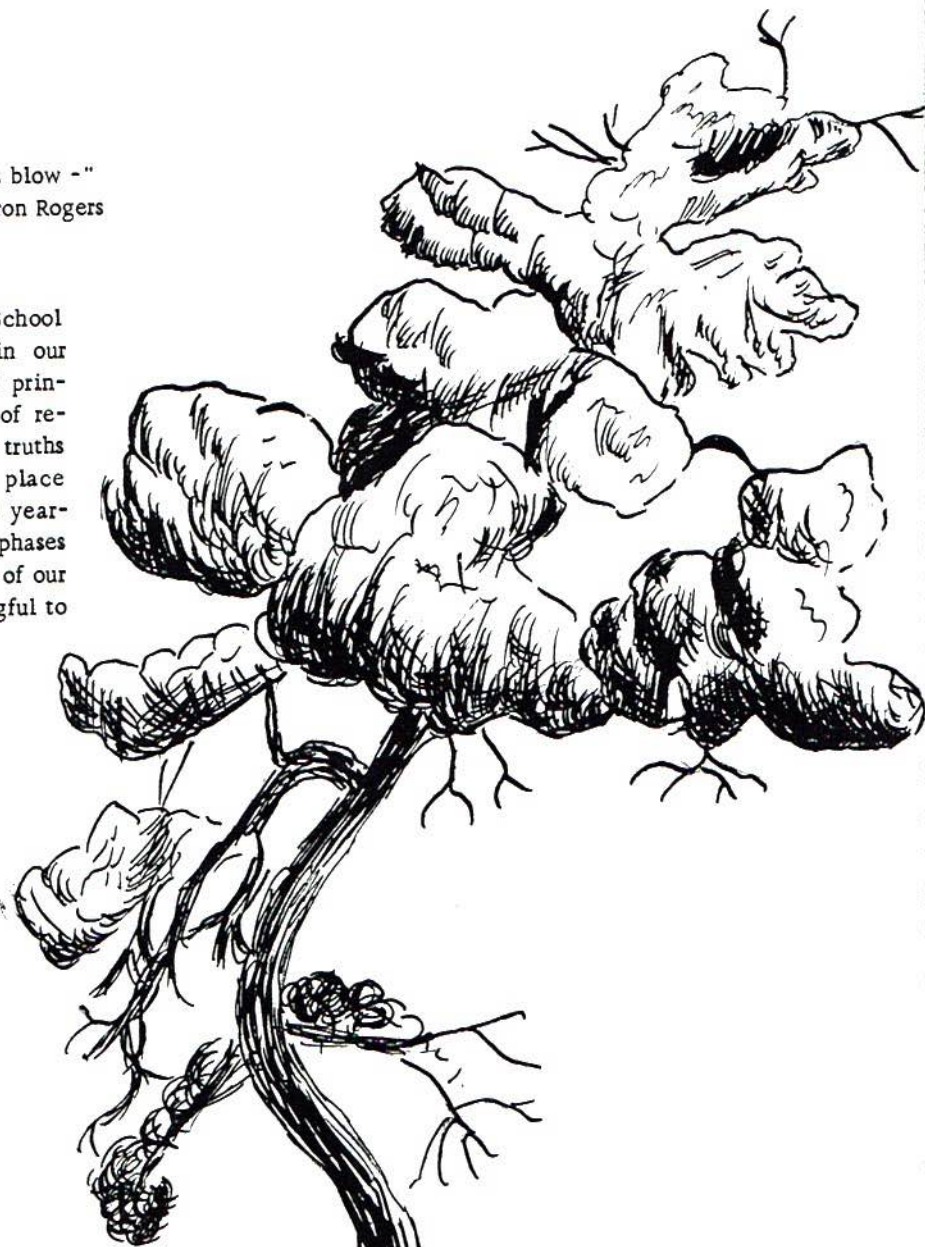

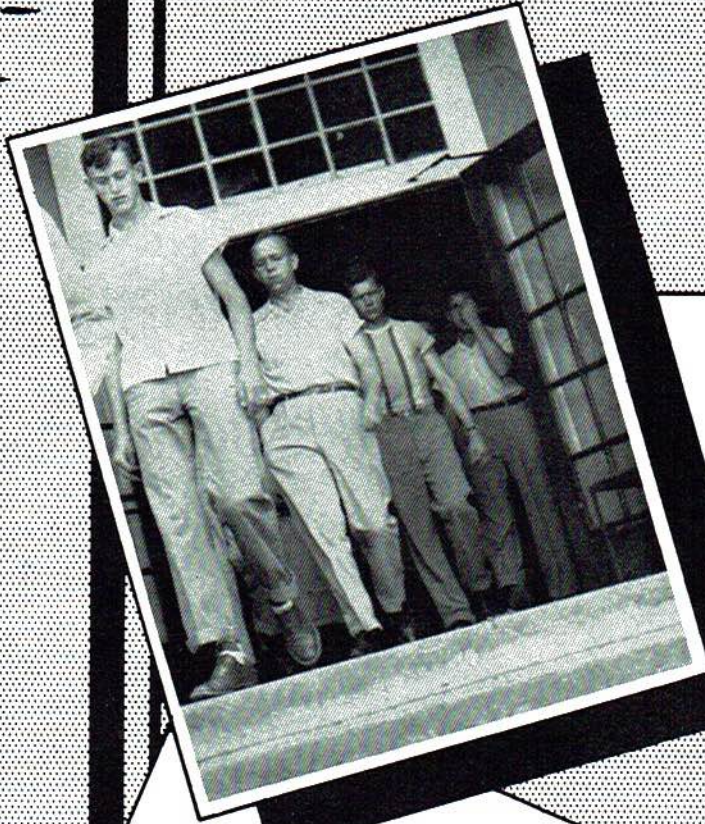

Foreword

"Pine-roots to last until the dawn-winds blow -"
Robert Cameron Rogers

Within the doors of Stevenson High School we have, indeed, had instilled within our hearts and minds the deep roots and principles of freedom and democracy, of respect for God and man, and basic truths which assure us that we shall find our place of useful service in society. In this year-book we have attempted to portray all phases of activity which have been a part of our training. We hope it will be meaningful to you.

The Staff
Panther Tales 1955
Volume IX

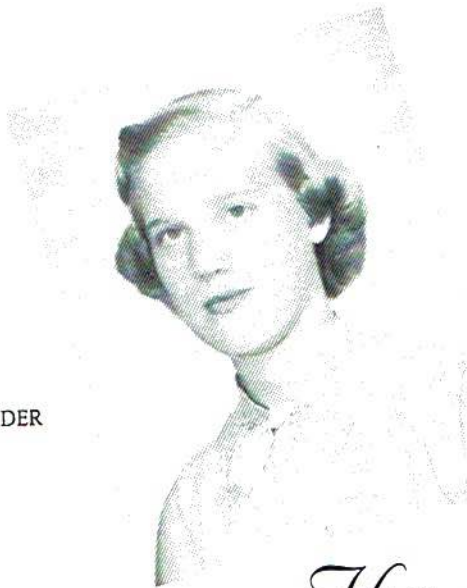

Dedication

We, the Senior Class, dedicate this volume of the 1955 PANTHER TALES to all the students who follow us. To those who are in school now and to all those who enter in the years to come, we dedicate this record of classes, activities, sports and school life in all of its phases. We sincerely hope that Stevenson High School will be as dear to you as it is to each of us and that your school days will be as happily and as profitably spent as we feel that ours have been.

"The tree that never had to fight,
Never became a forest-king."
Douglas Malloch

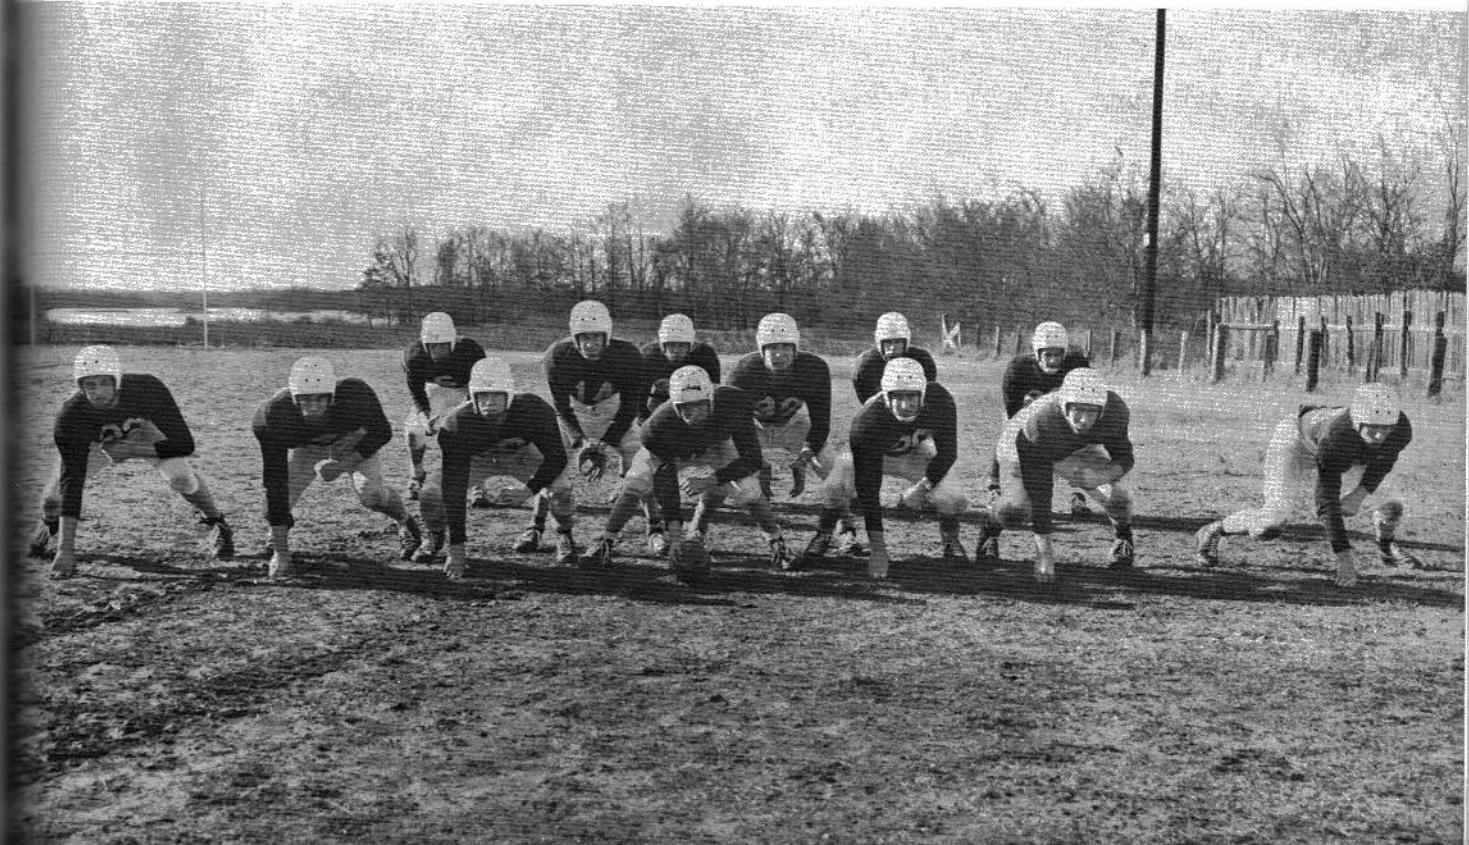

Weymon R. Smallwood has for six years very capably trained his team in the spirit of fair play and good sportsmanship and in technical knowledge and skills. The 4-AA Championship award which was won this year is a fitting tribute to coach and team.

The Staff of the 1955 PANTHER TALES gratefully acknowledges the splendid cooperation of the business firms whose purchase of advertising space made this yearbook possible. We urge the students, faculty, and school parents to continue the patronage of these friends.

We also acknowledge with thanks the excellent work of our Southland Studio photographers and of our own school photographer, John J. McCraw.

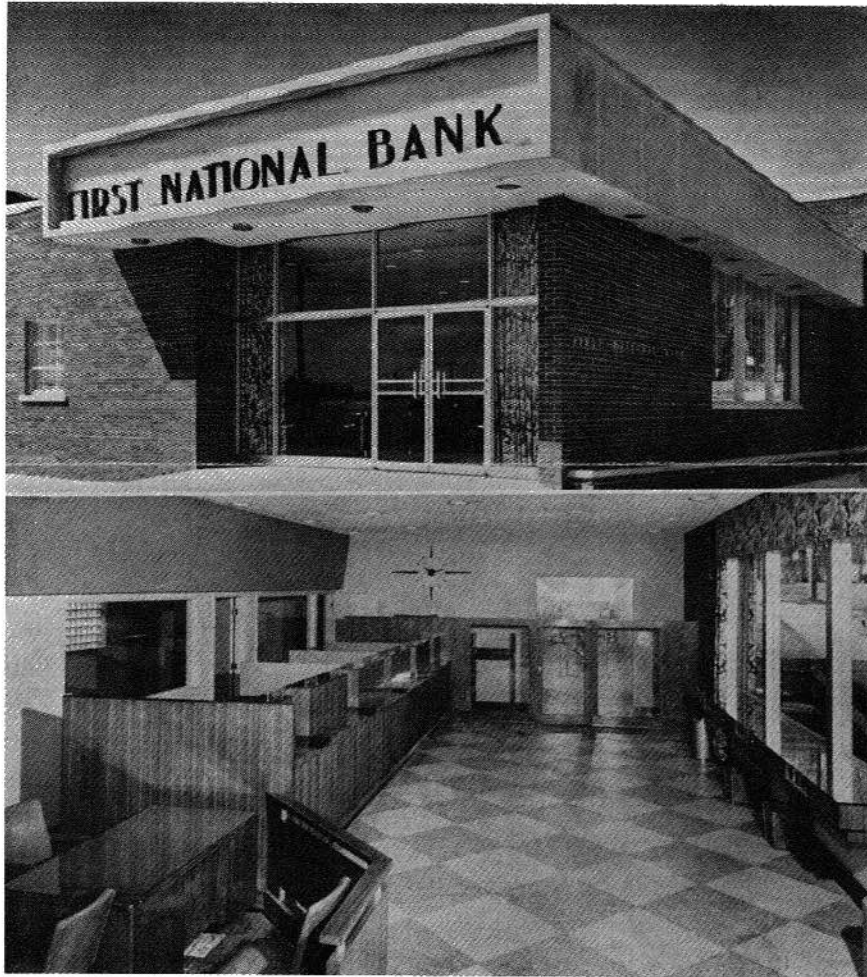

To all the teachers and other friends whose aid has helped make the book possible we say, "Many thanks."

MAKING THE GOOD EARTH BETTER

Low cost electricity does more than make farming more profitable. It encourages farm practices that build up the land instead of tearing it down . . . It gives the farmer the strength of many men. No other source of power serves so well or at such a low price.

Many of our farms do not have this valuable farm hand, but electrification is going forward as fast as materials become available. This is one of your power distributor's most important contributions in making this a better place to live.
