COMPLETE AND PROGRESSIVE

The ABCD type of ConSurvey directory was originated by Robert Morton Baldwin and Heber Page. While many publishers have been content to rest on their laurels, issuing the same type directory used fifty years ago, the Mullin-Kille and Baldwin organizations have led the way to the production of an up-to-date ConSurvey directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants' associations and individual business concerns are invited to write for particulars concerning this type directory service. In the future, as in the past, Mullin-Kille and Baldwin ConSurvey directories will stand for the highest ideals in public service.

The information herein contained was taken by trained enumerators in a house-to-house canvass of the city and adjacent territory and checked with material supplied by employers. The publishers offer it as the most reliable information available but do not assume any responsibility for errors.

FIVE DIVISIONS OF THE BOOK

The principal divisions of the Mullin-Kille Directory contain the following information:

1. THE PREFACE contains historical and civic information with photographs of general interest.
2. THE BUYERS' GUIDE and CLASSIFIED BUSINESS DIRECTORY SECTION contains display information concerning the leading business firms of the city, announcements of churches, clubs, lodges, associations and schools, and the names of all business firms, professional men and women and non-profit organizations, properly classified, with the names of distributors of national brands of merchandise.
3. THE NUMERICAL TELEPHONE DIRECTORY contains telephone numbers arranged in numerical sequence.
4. THE HOUSEHOLDERS' DIRECTORY AND STREET TELEPHONE GUIDE contains a complete directory of streets and avenues, properly located, gives the names of all householders arranged as they come upon the streets and avenues, indicates ownership of property, and gives the telephone number of each house.
5. THE RESIDENT DIRECTORY AND COSMOPOLITAN TELEPHONE DIRECTORY contains most of the data concerning the individual. The wife's name is given in parentheses, and the number of dependents under 18 is shown as well as the ownership of homes. This is followed by position, place of employment, home address and accessible telephone numbers.

Explanation

All persons over 18 years of age living in the community are listed.

The wife's name is shown in parentheses after the husband's as follows: Smith Robt R (Mary L).

The number of children under eighteen years of age is shown after the wife's name as follows: Smith Robt R (Mary L) 3.

In the resident directory home ownership is designated by @ as follows: Smith Robt R (Mary L) 3 @. Renters are shown by the omission of the @.

In the householders' directory ownership is shown by the same designation as follows: 210 Main Smith R R @.

In the case of a natural widow this fact is shown with the name of the deceased husband in parentheses, whenever possible, as follows: Smith Mary L (wid Robt R).

The occupation and place of employment are shown as follows: Smith Robt R (Mary L) 3 @ clk Hub Clo Co.

The residence of each person is shown by "h" denoting householder or head of a family and by "r" denoting other persons in the home. Only one person in each home is listed with an "h". Therefore, a circular mailed to each householder marked "h" will reach every home in the city.

Married women engaged in some responsible occupation are listed individually in addition to their regular listing with the husband as follows: Smith Mary L (Mrs Robt R) bkpr Hub Clo Co r 210 Main.

The words street and avenue are understood.

Persons living outside the city limits and receiving their mail in the country are marked RD.

Telephone numbers are designated in the resident directory at the end of the line with the designation Δ as follows: Smith Robt R (Mary L) 3 @ clk Hub Clo Co h 210 Main Δ123-4567.

In the householders' directory the telephone number of each house is given at the end of the line as follows: 210 Main Smith R R @—Δ123-4567. In this division of the book each street is listed alphabetically and each house on the street is listed according to number. All street intersections are shown at the proper places with the names of the cross street. In case there is no telephone shown the nearest telephone on the street may be found.

In the numerical telephone directory the telephone numbers are listed in numerical order.

In the business directory and buyers' guide the various business and professional firms are arranged according to their line of business and merchandise sold. Nationally advertised brands are designated with a ★. For example under the heading automobiles will be found the following classification: ★FORD—Jones Mtr Co 110 Elm. The buyers' guide carries the printed message of the city's leading business and professional firms.

This directory contains all the regular departments of the modern city directory and many features used by no other publisher. It shows the exact population of the city and environs at the present time.

Scottsboro, Alabama

STATISTICALLY SPEAKING
THIS IS SCOTTSBORO

By JAMES K. HARKNESS
Editor and Publisher of The Daily Sentinel

LOCATION

Scottsboro, the county seat of Jackson County, is located on the Tennessee River and Roseberry and Sauta Lakes at the eastern gateway of the Tennessee Valley. It is 100 miles northeast of Birmingham, 60 miles southwest of Chattanooga, and 40 miles east of Huntsville. Elevation of the city is 425 feet MSL and the terrain ranges from mountains and hills to gently rolling to flat. The city and county is in the heart of the beautiful Mountain Lakes Area of North Alabama—The Region of Rustic Luxury.

HISTORY

The Scottsboro area was first inhabited by the Cherokee, Chickasaw and Shawnee Indian Nations. All three of these tribes were basically peaceful and were very friendly to the white settlers. It is estimated that some 400 Cherokee warriors fought alongside General Andrew Jackson in the Creek Indian Wars. Generally the red men were friendly towards the white men and they lived in peaceful coexistence. This peaceful coexistence was probably helped by the fact that Sequoyah, the famous half-breed scholar and leader of the Cherokee Nation, made his home near Scottsboro at Saltpeter Cave. The first white people in the Scottsboro area was a family by the name of Birdsong. Other people began settling around Scottsboro in 1814. Robert Thomas Scott was one of the original pioneers and it is from him that the city gained its name. Scott was a wealthy young nobleman from North Carolina, and he wished to found a town in his own name. In 1837, Scottsboro was originally known as Sage Town. In 1856, the Memphis and Charleston Railroad began delivering passengers to Scottsboro which was then called Scotts Station. In November of 1868, a courthouse was erected in Scottsboro on land donated by Robert Scott, and this city became the county seat with the removal of the records from Bellefonte. Scottsboro has become famous for its "First Monday" trade days which attract many visitors and tourists. Thousands from many states come on the first Monday in every month to trade and swap antiques and oddities of old.

The recent and rapid entering of several large industries into Scottsboro has demanded that this city change its "grass roots" planning to that of a modern urban complex. This rapid change can be easily seen in the population increase from 6,500 in 1960 to the 1972 census of 14,500.

The city of Scottsboro is ripe for urban expansion and industrial growth and if the pattern of urbanism continues in its present path, there is no doubt that this city will eventually become one of the great urban centers of Alabama.

## Numerical Telephone Directory

1972

Containing a list of telephone subscribers arranged in numerical sequence. The information listed below was obtained by a house-to-house canvass and is offered for the convenience of subscribers to the City Directory. The Publishers are very careful in using these numbers but do not assume any responsibility in case of error. Since telephone numbers change rapidly, it is suggested that persons using this list refer to the latest edition of the regular telephone directory issued by the local telephone company in order to verify the information contained herein.
